Day 4 notes

Zach Neveu

January 16, 2020

MIDI stuff

- PC can work as midi sink or source
- Bela can also be both
- Can use Bela like a PC with a MIDI controller
- Can also use Bela as a synth, and use PC as midi controller!
- See PD sketch for how to do this

Goal: Send MIDI from computer to Bela

- Can do this with `fake_midi_controller.pd` patch

Sampling

- Use `soundfiler` object in PD
